Interoffice Memo

TO: Lisa Bledsoe
Watershed Restoration
Department of the Environmental Protection and Sustainability

FROM: James A. Markle, P.E., Manager */signed/*
Department of Environmental Protection and Sustainability

DATE: November 3, 2017

SUBJECT: Dulaney Valley Branch @ Windmere Parkway Stream Restoration
Stormwater Management Variance
Loch Raven Watershed
EPS Project ID: M170347
Tracking Number: 03-17-2596

This office has reviewed the information submitted and finds that a stormwater management variance can be granted for this project under Section 33-4-113 (a) (2) of Title 4 of the Baltimore County Code. This section of the regulations allows a stormwater management variance to be granted if there are exceptional circumstances such that strict adherence to the provisions of this article would result in unreasonable hardship or practical difficulty and not fulfill the intent of the regulations.

This project is for the restoration of Dulaney Valley Branch at Windmere Parkway. The existing cover conditions will be re-established once the stream is restored. Although the disturbed area is in excess of 5,000 square feet, there will be no increase in impervious area as a result of this project.

Please contact Michael P. Doyle of my staff at 410-887-3768 should you have any questions.
